

THE FOUNDER · PART 3 OF 3

Meet Amber Liang, the AI strategist behind Charlie.

“I've seen what a bank-sized AI budget buys. I built Charlie so independent firms don't need one.”

- ✓ Led AI adoption at one of ASEAN's largest banking groups
- ✓ Product leadership at Alibaba across APAC
- ✓ Founder of Adaptive Intelligence, building agentic AI strategies for Fortune 500 companies and fintechs in the region
- ✓ Built Charlie's guardrails on her own portfolio first

AI STRATEGY FOR WEALTH TEAMS

From zero AI experience to AI-native teams.

Adaptive Intelligence helps leadership teams at Fortune 500 companies and fintechs set AI strategy and put it into daily workflows. For wealth firms, that becomes a hands-on workshop for RMs.

1-day
intensive

AI in wealth management with live tool demos, then practice on real client scenarios.

3-day
immersive

The compliance line, a working AI-assisted routine, and a personal action plan for each RM.

3

workshops hosted

125+

attendees, including Day of AI
Singapore with MIT RAISE and i2
Learning

WORK WITH US

Two ways to start.

14-day sandbox

See Charlie on your own book, with anonymized data and no integration work up front.

RM workshop

Build your team's AI confidence first. No integration, no data sharing.
